

Whole House Dehumidifier for Crawl Space & Basement

Guardian SNS65S

Optional Remote Control

Optional MERV-1 Filter

Winkle free tube

Proven performance

- ◆ The Guardian SNS65S dehumidifier is an effective solution to environmental control problems. This unit is of high capacity which can operate at high efficiency to remove moisture from the air through the refrigeration process. The high-efficiency rotary compressor ensures the maximum extraction with the lowest running costs. Tight spaces are no problem for the Guardian SNS65S dehumidifier. Its compact size works perfectly in low crawlspaces and small basements without sacrificing power or performance. Designed to fit in various small spaces, the Guardian SNS65S provides multiple installation options with great flexibility.
- ◆ Guardian SNS65S has the humidity sensor in bypass air design, making the short cycling go away and quick access to internal service. Customers can do it by themselves, and service becomes easy. With excellent airflow, multiple ducting options and aside sliding filter, and some amazing engineering. The unit removes the maximum of 120 pints of water per day (saturation) with a current draw of 4.1 Amps. It is one of the smallest and lightest dehumidifiers on the market. This unit is equipped with an auto defrosting system which ensures a quick and efficient clearing of ice from the coil at the minimum operating temperature of 33.8°F.
- ◆ The small compact size makes the unit ideal for installations limited to crawl spaces and basements, etc.

Features

- Supper COP
- 2.4 L/Kwh
- Through pipe drainage
- Rare earth alloy Tube Evaporator
- Quick Access for Service
- Smallest Size
- HVAC Remote System
- Engineered for low temperature operation and the air flow issues that crawl spaces present
- Ducting options for divided spaces
- Remote Control equipped

Hanging kits for crawl space and basement fehumidiifilrs

- This hanging kit works for the Abestorm Guardian SNS65S, Sentinel HD90/HDi90, and Storm LGR Extreme dehumidifier from the floor joists in your crawl space.
- This pack comes with 4 Ratchet Straps. Use the easy pulley mechanism and adjust the rope as per your desired height. Suspend the dehumidifier in a crawl space, basement, or attic setting.
- It helps to reduce noise and vibration while the dehumidifier is operating when properly installed. No transfer of noise or vibration to the floor above, and getting lower space back is comfortable. Also, it provides additional height for proper condensate drainage/removal.
- Easy to install, Adjustable straps allow the user to easily lower or remove the dehumidifier for cleaning or service when needed.
- The rope is made from braided polypropylene; this strong and durable material will not fray or rip. It can also hold up to 300 pounds of weight! The hooks are made of zinc-plated stainless. (The components need to be purchased separately).

Metal shell, sturdy and durable

Optional Remote Control

Pump drain / Gravity drainage

Automatic Defrosting System

Rare earth alloy Tube Evaporator

HVAC Remote System

Application:

- ◆ The Guardian SNS65S dehumidifier is designed specifically for crawl spaces and basements. Low noise level, great COP 2.4 L/KWh.
- ◆ The Guardian SNS65S supplements the air conditioning system in the summertime and maintains humidity levels balanced during the year.
- ◆ Installation flexibility makes the unit ideal for almost any application. No conventional dehumidifier can perform as efficiently and effectively in basements and crawlspaces as Guardian SNS65S. It is the best choice for residential work and restoration jobs and is suitable for households. shops, storage areas, industrial institutions, and garage applications, etc. The remote humidistat design makes this unit ideal for places where remote sensing and control are required. Optional duct mounting flanges reduce the installation time when connecting to existing/new ducting systems. Our AlorAir mobile app is included with the unit upon purchase. On the other hand, this ETL-listed dehumidifier is made of a metal outer casing that withstands more rugged conditions, ensuring long-term use and easy maintenance.

- + Museums/Sports
- + Water Damage Restoration
- + Computer Rooms
- + Basements

- + Hotel/Motel
- + Offices
- + Laboratories
- + Museums
- + Storage Areas
- + Restaurants

INSTALLATION OF A Guardian SNS65S WITH A SUPPLY KIT ONLY

1. Passive Return Vent
 2. Remote Control(Mounts on opposite Wall in Finished Area, Energize the sensor on Remote Control)
 3. Supply Grill
 4. Supply/Discharge Duct Work
- ◆ Place the Guardian SNS65S in the unfinished area of the basement near drain access (condensate will be drained out via pump).
 - ◆ Connecting the Duct Tube on the Collar, supply dry air from the dehumidifier to a large and open area in the finished section of the basement.
 - ◆ Place a return grill/passive vent on the other side of the wall that separates the finished and unfinished areas. This will allow circular airflow to go through the basement.
 - ◆ The passive grill will prevent the unfinished room from being placed under a negative reassure and allow the dehumidifier to focus on keeping the unfinished area dry.
 - ◆ The Remote Control has the normal restore function to insulate the unit's noise and can be used at the Sensor Switch. You can choose the humidity sensor from the unit and Remote Control.
 - ◆ Be sure to keep all doors open in the basement to help proper air circulation (bedrooms, bathrooms, etc.)

The Guardian SNS65S has a 5 years warranty.
